Welcome to 6th NICE Conference (NICE2015) in Tokyo

Masahiro Kamata¹ and Akira Ikuo²

¹Department of Science Education, Tokyo Gakugei University, Tokyo 184-8501, Japan  
²Department of Chemistry, Tokyo Gakugei University, Tokyo 184-8501, Japan  
masahiro@nifty.com

The purpose of NICE is promoting the communication between inter-Asian chemistry educators, exchanging the chemistry teaching strategies and materials in different countries, as well as sharing the fruitful results. The first symposium was held in Seoul in conjunction with the 19th ICCE, 2006, and the following symposiums were held in Taipei (Taiwan, 2007), in Tokyo (Japan, 2009), in Seoul (South Korea, 2011), in Pingtung (Taiwan, 2013)¹. NICE2015 will provide an ideal opportunity for all participants to share and exchange experiences and information related to important topics in chemistry education such as;

- Students’ conceptions and conceptual change  
- Instructional strategies  
- Chemistry in daily life, Attitude toward chemistry  
- Lab activities, Sharing / Exhibiting products of science fairs  
- Representation of curriculums / textbooks

The venue is Miraikan (National Museum of Emerging Science and Innovation) located on Odaiba, which is a large artificial island in Tokyo Bay.

We are looking forward to seeing you at Miraikan in Tokyo next year.
